

Client Information

Required Information

Account #: _____ Account Name: _____
 Street Address: _____
 City, ST, ZIP: _____
 Phone: _____ Fax: _____
 Additional Reporting Fax: _____

Requisition Completed by: _____ Date: _____
 Ordering Physician: _____ NPI #: _____
(please print: Last, First)
 Treating Oncologist/Physician: _____ NPI #: _____
(please print: Last, First)

By completing this section, the undersigned certifies that he/she is licensed to order the test(s) listed below and that such test(s) are medically necessary for the care/treatment of this patient.

Authorized Signature: _____ Date: _____

Billing Information

Required: Please include face sheet and front/back of patient's insurance card.

Patient Status (Must Choose 1): Hospital Patient (in) Hospital Patient (out) Non-Hospital Patient
 Bill to: Client Bill Insurance Medicare Medicaid Patient/Self-Pay
 Split Billing - Client (TC) and Insurance (PC) OP Molecular to MCR, all other testing to client
 Bill charges to other Hospital/Facility: _____

Prior Authorization # _____ See neogenomics.com/billing section for more info.

Clinical Information

Required: Please attach patient's pathology report (required), clinical history, and other applicable report(s).

ICD 10 (Diagnosis) Code/Narrative (Required): _____

Reason for Referral: _____
 New Diagnosis Relapse/Refractory Monitoring MRD

Bone Marrow Transplant (required information for Oncology Cytogenetics):
 None Autologous Allogeneic Sex Mismatch

Consultation

COMPASS® Comprehensive evaluation including morphology

Blood and/or Bone Marrow
 Paraffin block for Morphology to follow

COMPASS® Select (Without morphology)

Blood and/or Bone Marrow - Morphology performed by client
(Morphology report required. Please fax to avoid testing delays.)

Lymphoma Consult

Lymph Node/Tissue for Lymphoma*

*Split fresh specimens to RPMI and formalin
 Paraffin block for Morphology to follow

A NeoGenomics pathologist will select medically necessary tests (with any exceptions noted or marked by the client) to provide comprehensive analysis and professional interpretation for the materials submitted.

Please attach CBC for Blood and Bone Marrow (required).

Do not add NGS Profile without prior approval

Flow Cytometry Please attach CBC with all flow requests on blood or bone marrow (required).

Follow-Up/Add-On panels are available in conjunction with, or after, a Main Panel result has been reported by NeoGenomics or client.

Diagnostic/Prognostic Panels

G T
 Standard L/L Panel (24 Markers)
 Extended L/L Panel (31 Markers)
 N/A CD4/CD8 Ratio for BAL
 High Sensitivity PNH
 T&B Tissue Panel
 TRBC1/T-Cell Lymphoma Companion

Add-On Tubes

G T
 AML
 B-ALL
 CLL/Mantle Cell Companion
 Erythroid-Mega
 Hairly Cell
 Mast Cell
 Plasma Cell
 T-ALL
 TRBC1/LGL

Follow-Up Panels

G T
 AML
 B-ALL
 Hairly Cell
 Plasma Cell
 T-ALL
MRD Panels
 N/A AML MRD Panel
 N/A B-ALL MRD Panel (BM)
 N/A B-ALL MRD Panel (PB)
 N/A CLL MRD Panel
 N/A Myeloma (MM) MRD Panel

G - Global T - Tech-Only

Specimen Hold Option: Refrigerate and Hold

Tech-Only Opt Out Option: To avoid delay in patient care and as medically necessary for an individual patient, additional markers will be added by the flow lab when abnormal populations are detected. Please refer to NeoGenomics Flow Cytometry Guidelines for additional information on tech-only add-on medical necessity criteria.

Tech-only clients may instruct NeoGenomics to not follow this stated criteria by checking this box.

FISH G - Global T - Tech-Only

HemeFISH® Panels

G T
 Anaplastic Large Cell Lymphoma (ALCL)
 ALL - Adult
 ALL - Pediatric
 ALL, Ph-Like
 AML Standard
 AML Favorable-Risk
 ALL Non-Favorable Risk
 CLL
 Eosinophilia
 High-Grade/Large B-Cell Lymphoma
 Reflex to BCL6/MYC, IGH/MYC, IGL/MYC if MYC+ and IGH/MYC-

Plasma Cell Myeloma Panels - Plasma Cell Enrichment will be performed on all bone marrow samples having plasma cell FISH tests.

G T
 Plasma Cell Myeloma - Do not reflex to IgH Complex (applies to global only; tech-only will not reflex)
 Plasma Cell Myeloma IgH Complex
 Plasma Cell Myeloma Prognostic Panel

Individual Probes

G T
 11q Aberration in NHL
 1p36 Deletion
 ALK for Lymphoma
 BCL6/MYC t(3;8)
 BIRC3 (AP12)/MALT1 t(11;18)
 BCR/ABL1/ASS1 t(9;22)
 CDKN2A (p16) Deletion for ALL
 DUSP22-IRF4 Rearrangement
 IGH/MAFB t(14;20)
 IGH/MYC t(2;8)
 IGL/MYC t(8;22)
 JAK2 (9p24.1)
 MYC/IgH/CEN8 t(8;14)
 NUP98
 TCL1 (14q32.1)
 TP63 Rearrangement
 PML/RARA t(15;17)

Hospital Discharge Date: mm _____ / dd _____ / yyyy _____

Body Site: _____

Primary Metastasis - If Metastasis, list Primary: _____

Bone Marrow [must provide CBC and Path Report]:

Green Top(s) _____ Purple Top(s) _____ Core Biopsy _____ Clot _____

Peripheral Blood: Green Top(s) _____ Purple Top(s) _____ Other _____

Fresh Tissue (Media Type required): _____

Fluid: CSF _____ Pleural _____ Other _____

FNA cell block: _____

Smears: Air Dried _____ Fixed _____ Stained (type of stain) _____

Slides # _____ Unstained _____ Stained _____ H&E _____

Paraffin Block(s) #: _____

Choose best block (for global molecular/NGS testing only)

Submit ≤4 blocks. Blocks will be combined for molecular testing when necessary.

For all other testing, specify which block to use for each if sending multiple blocks. See back for details.

Comments:

Cytogenetics

Oncology Chromosome Analysis
 Reflex to FISH if cytogenetics is normal (reflex FISH panel must be marked)
 Reflex to FISH if cytogenetics is incomplete (<20 metaphases)
 G T MDS Standard FISH
 G T MDS Extended FISH
 Follow-up Constitutional Chromosome Analysis (only if recommended by Oncology Chromosome Analysis)
 Other: _____

Specimen Hold Option: Culture and Hold (liquid samples & lymph nodes; n/a for solid tissues)

FlexREPORT®

FlexREPORT: Please add summary report option to this case.

Specimen Requirements

Refrigerate specimen if not shipping immediately and use cool pack during transport. Please call the Client Services team with any questions regarding specimen requirements or shipping instructions at 866.776.5907 option 3. Please refer to the website for specific details on each specimen.

Additional Billing Information

Any organization referring specimens for testing services pursuant to this Requisition Form ("Client") expressly agrees to the following terms and conditions.

- 1. Binding Service Order.** This Requisition Form is a contractually binding order for the services ordered hereunder ("Services") and Client agrees that it is financially responsible for all tests billable to Client hereunder.
- 2. Third Party Billing by NeoGenomics and Right to Bill Client.** Client agrees to accurately indicate on the front of the Requisition Form that either Client should be billed (e.g., Client receives reimbursement pursuant to a non-fee-for-service basis, including, but not limited to, a capitated, diagnostic related group ("DRG"), per diem, all-inclusive, or other such bundled or consolidated billing arrangement) or NeoGenomics should bill the applicable federal, state or commercial health insurer or other third party payer (collectively, "Payers") for all Services ordered pursuant to this Requisition Form. For all such Services billable to Payers, Client agrees to provide all billing information necessary for NeoGenomics to bill such payer. In the event NeoGenomics: (i) does not receive the billing information required for it to bill any Payers within ten days of the date that any Services are reported by NeoGenomics; (ii) the Services were performed for patients who have no Payer coverage arrangements; or (iii) the Payer identified by Client denies financial responsibility for the Services and indicates that Client is financially responsible, NeoGenomics shall have the right to bill such Services to Client.

Additional Specimen Information

If submitting multiple blocks, clients must indicate either "Choose best block (global molecular/NGS testing only)", or assign the selection of blocks to individual tests. If multiple blocks are sent without a selection, they will be held until clarification is provided. Please call the Client Services team with any questions regarding specimen information.

Specimen Hold Option Descriptions

To preserve the integrity of samples and avoid unnecessary testing, NeoGenomics Laboratories offers the option of processing samples to maintain specimen integrity for extended periods, without a test order. Any hold order will result in billed charges to the ordering client if testing is not ordered/performed. Specimen Hold Options include:

FISH: Direct Harvest and Hold: FISH specimens will be minimally processed and directly harvested while the cells are still viable. Analysis is not performed until the client test order is received. Processed samples will be retained for 28 days.

Plasma Cell Enrichment and Hold: Plasma cells will be isolated for bone marrow specimens. Sample should be received at NeoGenomics Laboratories within 72 hours of collection. Analysis is not performed until the client test order is received. Processed samples will be retained for 28 days.

Flow Cytometry: Refrigerate and Hold: Flow cytometry samples will be refrigerated and retained for 28 days, however, optimal stability is within 72 hours of collection.

Molecular Testing: Extract Nucleic Acid and Hold: Nucleic acid (DNA or RNA or TNA) will be isolated from viable cells and stored in a freezer. **Use this option when it is known which test(s) may be added.** Analysis is not performed until the client test order is received. Processed samples will be retained for 28 days.

Test Descriptions

Please see complete test descriptions and all available tests at our website, www.neogenomics.com/test-menu.

Test Notations

Specimen Usage

NeoGenomics makes every effort to preserve and not exhaust tissue, but in small and thin specimens, there is a possibility of exhausting the specimen in order to ensure adequate material and reliable results.

FlexREPORT®

FlexREPORT can be ordered on any global or tech-only testing referred to NeoGenomics. This report template can be used to import data and images collected from testing performed outside of NeoGenomics, and incorporated into a one page summary report. Client logo and contact information will be in the header of the FlexREPORT.

FISH

Plasma cell myeloma FISH panels: Plasma cell enrichment will be performed on bone marrow samples having plasma cell FISH. Sample should be received at NeoGenomics Laboratories within 72 hours of collection.

FLT3 Testing with NeoTYPE and Neo Comprehensive profiles

The FLT3 Mutation Analysis test is available as client-bill only when ordered with NeoTYPE and Neo Comprehensive. The Molecular case reports separately from the NeoTYPE or Neo Comprehensive Profile (which also includes FLT3 gene by NGS) for the purpose of prompt therapy selection in patients with a *new* diagnosis of AML.

NEO AML Express

The NEO AML Express test is available as Client-Bill only. Client is financially responsible for this test order.
